

## GU10 LED SPOT DIMMABLE

Yphix GU10 lamps are accessible in multiple versions, so you can always find the right LED replacement for your old halogen GU10 lamp. Thanks to the GU10 socket, the lamp can be connected directly to 230V, without having to use a transformer.

### DIMMABLE WITH WALL DIMMER

Use the Yphix LED dimmer trailing edge to be guaranteed to have a perfect dimming range! The Yphix LED dimmer can be combined with almost all cover frames of the best-known brands like GIRA, Jung and Berker. The Busch Jaeger cover frames can also be used. For those combinations, an adapter is always added to adjust the strength of the screw from 4mm to 6mm.

### PRODUCT COMBINATION

- LED dimmer 5-350W flush-mounted 230V phase cut-off Art. no. 50348501
- GU10 LED light dimmable

## GU10 LED SPOT DIMMABLE
